

PRESS RELEASE

FOR IMMEDIATE RELEASE

BARRELS OF COLOUR

The Barrel Recess range was launched last year using a choice of natural coloured leather bridal Leather grips. The range, which encompasses cabinet handles, and door pulls has proved to be one of Turnstyles best selling lines, combining the luxury and feel of leather with the sleek flush lines.

Turnstyle have now taken the same concept and moved it into their alternative material, ***Resin Composites***, allowing them to bring in textures and colours.

The new range had a sneak preview at last years 100% Design and wholeheartedly got the thumbs up from the design industry. The range is now in production and can be viewed on Turnstyles amazing new website. www.turnstyledesigns.com

The colour grips run from subtle Bone and Ebony to bright Reds and Blues, new textured grips, such as Rough Cut (shown) are also available, the range will be extended to door pulls and cabinet handles later in the year. Suitable for interior and exterior use
