

**PRESS RELEASE**

**FOR IMMEDIATE RELEASE**

## **HIDE AND CHIC**

Turnstyle Designs are now firmly established as the place to go for leather hardware, after six years in production, they have worked out how to stitch or glue just about any shape of style, from door pulls to fiddle rails.

Their stock range of leather door has over 20 styles of door handles, over 25 designs of cabinet handles, plus bathroom fittings, door pulls, push plates, window fittings and leather wrapped switches and sockets.... and if they don't have it as part of their collection, if it can be made they will make it for you.

After this long in production they know a thing or two about leather, and know that for durability and finish the leather has to be tanned correctly and use the right type of leather.

Turnstyles new range of coloured leather are the very best full grain bridal leather (as with all their leathers). The colours are deep and rich from Library Green and Atlantic Blue to the vibrant, funky Jazz Red.

The new range is available throughout Turnstyles collections, from the minimal Recess range to the masculine Saddlers levers.

Made to order only, details are listed on Turnstyles amazing new website [www.turnstyledesigns.com](http://www.turnstyledesigns.com)
